welcome  
to heaven

Antigua is characterized by magnificent resorts. Where the poetry of coral meets the sound of tranquility you can find **Emerald Cove**, a real estate initiative just promoted.

An aerial photograph of a tropical resort. The image is split into two main sections by a diagonal line. The left section shows a large, multi-story white building with a grey roof, surrounded by numerous palm trees and a sandy beach. A wooden pier extends into the clear, turquoise water. The right section shows a similar building complex, also with palm trees and a sandy beach. In the foreground, a large, curved infinity pool with light blue water is visible. The overall scene is bright and sunny, with clear skies and vibrant colors.

The initiative raises on the “Nonsuch Bay” (incomparable bay), an **uncontaminated** area, protected by coral reef, located in the eastern part of Antigua, overlooking the Atlantic Ocean.

The cottages and the villas, completely designed by an Italian architect, grant an **incomparable access** to the **beaches** and **private marine**. The island stretches its appeal into every building. An **unbeatable resort** for a **way of living** which will be **invaluable** and **unique**.
